MOONLIGHT BAY

Cap Rocat is the name of a stunning military fortress in Mallorca, with panoramic views of the bay of Palma. The hotel has just introduced Dolce Vita weekends, enabling you to choose a classic car in which to explore the incredible scenery surrounding the hotel. Architect Antonio Obrador has taken inspiration from the building's grandeur to create details such as bullet door handles. Enjoy the private beach available for guests and soak up the atmosphere, created by the hotel's philosophy of simple luxury. Wherever possible, from the interior design to the restaurant menu, Cap Rocat sources its materials locally, ensuring that you can enjoy classic Mallorcan culture in what we deem a rather majestic setting.
